| • Outstanding Individual in Military Training | 2025 |
| • Outstanding Student | 2026 |
| • Merit Award in THUAI9 | 2026 |

Personal Skills

Programming	C++,C,Python
Software and Tools	Python,VS code,github
Artistic Skills	Traditional Chinese painting,Guzheng
Languages	Chinese,English

Research Interests

My research interests focus on embodied intelligence and computer vision, particularly on enabling intelligent agents to perceive, understand, and interact with the physical world through visual and multimodal information. I am also interested in the integration of perception, reasoning, and action in real-world robotic systems.
